Benefits

A very popular and timeless decoration in the spirit of feng shui, the Buddha is a bearer of spirituality and benefits. Wherever you choose to place it, on a terrace, balcony or even indoors, it will add a touch of zenitude and relaxation. These pretty statues stand out for the quality of their finishes, their mouldings and drapery, and the beautiful work done on the colours. Made from fiberclay, a lightweight material commonly used for garden pots, they are weather-resistant, durable and robust, and less prone to cracking than traditional clay items.
