

ARC BAMBOO

Arched bamboo stake

Bamboo arch supports are the ideal support for climbing plants in pots or other spaces. In addition to being very practical, these supports are also sturdy and aesthetically pleasing. In fact, they blend harmoniously into outdoor spaces.

Benefits

Simply insert it into the soil near the plant's stem and secure the plant to the stake at multiple points.

It's advisable to place the stake at the time of planting the plant, so the root system is less likely to be damaged.

Excellent for decorative or other DIY purposes!"

Very practical and strong.
