

NORTENE®

SUNNET KIT ELASTIC

Elastic and waterproof sun shade sail

Nada apetece más que un buen espacio exterior a la sombra para disfrutar a fondo del jardín cuando llega el verano. Este toldo vela elástico se adaptará a cualquier espacio, proporcionando una zona de sombreado fresca y agradable.

Benefits

Sail awning available in triangular or square shape. Protects from the sun by helping to control the amount of sunlight and lowering the temperature in the shaded area. As it is an elastic mesh, the sail is fully tensioned, offering a perfect installation. Installation, on the other hand, is very easy and simple.

Characteristics

Made of elastic polyester.
With anti-UV treatment.
Weight: 160 g/m².
Shading percentage 90%.
Available in two colors: beige and taupe.
Includes 1.5 meter ropes for installation.
Laterally reinforced with stainless metal rings in each corner. 316 stainless steel.
Presented in a small plastic suitcase with handles for easy transport and storage
