

## LABEL FIB

## Miscanthus Fiber Planting Label

Label plants and seedlings.

## **Benefits**

Made from a copolymer based on Miscanthus, the plastic content in its composition is reduced. The angle of the upper part allows for easy reading. Its color and texture give it a natural appearance.

## **Characteristics**

Made with a blend of 70% polypropylene and 30% Miscanthus. Highly resistant to UV and frost. Made in Europe.
