

NORTENE®

HIVERZIP XL

Winter cover for large plants

Tired of your plants not holding up in winter because of the cold? By using HIVERZIP XL, you no longer need to replace your plants. Our large format cover will allow you to gather them all and protect them from the cold.

Benefits

A cover with a format allowing the wintering of large plants. Its two zips allow easy access and installation. The cover can be maintained by 2.40m stakes to form a wintering greenhouse.

Characteristics

Polypropylene non-woven veil cover. Weight: 70g/m². 2 zippers. Eyelets on the lower part for ground support. Comes with 4 strings. Anti-UV treated.
